

## Shawn P. MacMenamin

Party Chief

Active Firm Member since 1996

Estimated Graduation - B.S. / 2008 / Geomatics

Mr MacMenamin has over ten years experience in surveying including five (5) years as Party Chief. During that time he has been responsible for all aspects of running a robotic survey crew from start to finish. These duties include gathering information from prospective clients, researching and gathering maps and legal documents necessary to complete surveys and evaluating data in field and/or office as necessary to complete surveys and the corresponding appropriate paperwork.

Survey work is completed utilizing the very latest in fully electronic data collection equipment. The TOPCON APL1A is a fully robotic total station with the TDS Ranger and the Carlson explorer data collection system, which permits true one man surveying for a most efficient data collection operation.

Mr. MacMenamin is scheduled to graduate in 2008 from Nicholls State University and Plans to sit for the Louisiana Professional Land Surveyors Exam in early 2009.

Mr. MacMenamin offers the following skills in Land Surveying:

- Surveying services for Boundary, Topographic and Right-of-Way Surveying.
- Surveying services for Civil Site Work including all utilities, drainage, site layout and planning.
- Surveying services for residential construction including flood elevation certificates and plot plans.
- Surveying services for Subdivision Design including small re-subdivisions to multi acre developments including all associated civil sitework to service the development.
